AMATEUR RADIO

Dr. Raymond V. Bowers, Yale University

Amateur radio is the means of communica-
on with others on equal terms, of finding
iendship, adventure and prestige while
eated at one's own fireside. In picking his
uman contacts out of the air the amateur is not
een by them. He is not known by the clothes
e wears but by the signals he emits. He enters
new world whose qualifications for success
re within his reach. There are no century-old
lass prejudices to impede his progress. He
nters a thoroughly democratic world where he
ses or falls by his own efforts. When he is
/9XYZ, a beginner, the radio elders help him
illingly, and when he becomes W9XYZ the
ecord-breaker and efficient traffic-handler, he
illingly helps the younger generation.
/ithout a pedigree, a chauffeur, or an old
aster decorating his living room he can
ecome a prince—of the air. At the close of the
ay, filled with the monotonous routine of the
achine age, he can find adventure, vicarious
avel, prestige and friendship by throwing in
ie switch and pounding his signals into the air.
